

# New Fuzion Adhesive Product

# FuzBond

## Product Specification:

<b>FuzBond Carpet Tile (3200-1 &amp; 3200-2)</b> 1 GALLON & 4 GALLON	A fast drying, pressure sensitive adhesive for all types of carpet tile backings, as well as for double glue down underpad. Non-flammable, water resistant, CRI Green Label Plus is certified as a “low VOC” adhesive. Can be used over concrete above, on, or below grade, plywood underlay, and prepared gypsum cement. Freeze-thaw stable to 15 degrees F.
<b>FuzBond LVP (4200-1 &amp; 4200-2)</b> 1 GALLON & 4 GALLON	Uniquely formulated for installing luxury vinyl planks and tiles. Forms a tenacious, permanent bond. Solvent free, non-flammable, no carcinogens and no-toxic. Use on concrete, plywood, prepared gypsum cement, and non-cushion back, well adhered, resilient floors. Freeze-thaw stable to 15 degrees F.
<b>FuzBond Tongue &amp; Groove (1850)</b> 1 PINT	High strength T&G adhesive formulated for professional installation of floating wood floors. Fast drying and when fully cured, passes type II water resistances. Freeze-thaw stable to 15 degrees F. Can be used over radiant heat.
<b>FuzBond Wood (5500-4)</b> 4 GALLON	A high strength urethane based adhesive designed for engineered hardwoods. Strong initial grab, no flash time, long open time, spreads easily, no slump formula, VOC compliant, and LEED qualified formula. Freeze-thaw stable. Min 12 month shelf life.
<b>FuzBond Wood “Assist Glue” (5650)</b> 20.03 SAUSAGE TUBE	Similar adhesive to FuzBond (5500-4), but specially designed for assisting nail/staple down installation of wide and long plank engineered hardwood floors using aluminum sausage packs for easy use.
<b>FuzBond Acrylic Primer</b> 4 GALLON	Specially formulated as a primer coat over common subfloors. This primer will improve spread rates and enhance the performance of the new adhesive.
